446 SQ FT

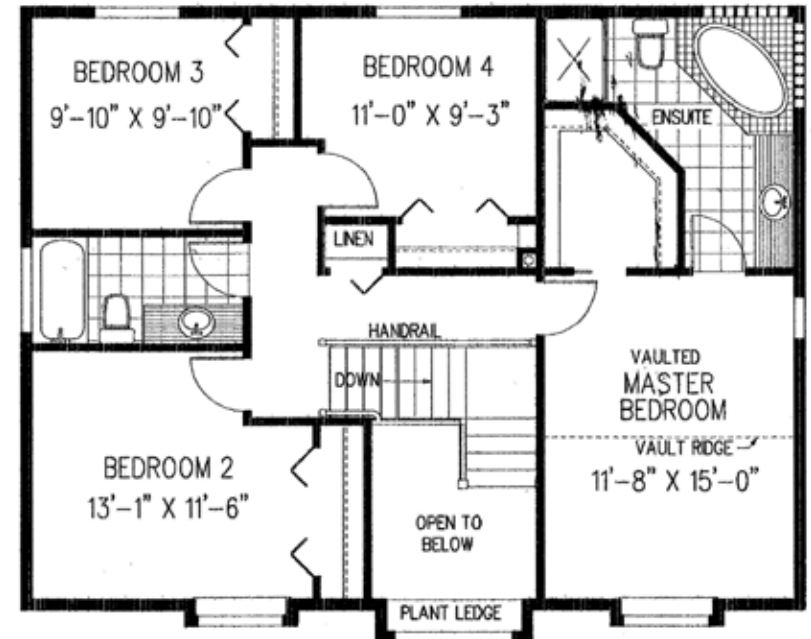

THE TIMBERCREST PACKAGE | This traditional home design contains traffic patterns that encourage family togetherness but also allows for necessary privacy. The plan spreads from the endearing front porch to four big bedrooms and an enormous family room that gives way to the kitchen, with easy access to the formal dining room. The living area is increased with the spacious living room at the front of the house complete with a fireplace and large bay. The master suite consists of vaulted ceilings with a sumptuous ensuite and walk in closet. All this, contained in a tidy 2,125 square feet.
